Colon Hydrotherapy

Gentle Waters Healing Center recognizes the exceptional health benefits of detoxifying the colon and thereby the body. Our Colon Hydrotherapy services are unsurpassed.

Colon Hydrotherapy, commonly called "colonics", is a gentle infusion of filtered, purified, temperature controlled water that enters the colon by means of a small disposable rectal tube inserted by the client or therapist. This process gently expels layers of matter interfering with the natural elimination of toxins and absorption of nutrients. The knowledgeable staff of Gentle Waters and their proficiency in operating the state-of-the-art LIBBE Colon Hydrotherapy Equipment insure client comfort, privacy and dignity. (Complete

physical relaxation, temperature control, no odor, no pressure, little or no cramping.) Personalized programs provide the client with maximum health benefits.

Colon Hydrotherapy is an excellent compliment to an already healthy lifestyle, and can assist in treating many ailments including constipation, IBS, high blood pressure, allergies, skin disorders, headaches, arthritic bone pain, and numerous others.
