Resolving Conflicts	3
Skills for Resolving Conflict	3

*** District Adopted Curriculum**

The Florida Department of Education has stated that it is imperative that students with disabilities have access to the general Education Curriculum when appropriate. This brochure is designed to provide ESE teachers with a listing of various materials, programs, and software that have proven to be effective in meeting the needs of our ESE students who require an alternate curriculum as determined by the IEP team.

This is not a complete listing of all curriculum resources available to teachers, rather it is intended to guide and assist teachers in choosing appropriate curriculum for their students.
