

The Teacher's Lab

www.sbac.edu/~tpl

This booklet was created to provide information to the teachers and staff of the Alachua County School System on what's available at the Teacher's Lab. The lab is a nonprofit service provided to the teachers and staff of the School Board of Alachua County.

Materials in the lab may be charged to your school account*, or paid for by cash or check. All monies collected for materials are recycled back into the school system for more supplies.

All materials are to be used for projects worked on in the lab for school related purposes. We do not supply materials for stocking classroom closets, non-school related projects or personal use. Teachers, volunteers and staff may use their own supplies (i.e., paper) and there is no charge for equipment use.

There is a lounge with vending machines (candy, chips, coffee, and sodas), a refrigerator and a microwave available for volunteers. Volunteers are welcome to bring a lunch and store it in the lounge refrigerator.

We're sorry but children younger than middle school age are not allowed in the lab. We have a waiting / play room set up just inside our door.

- Risk Management

** All schools must provide a charge permission slip signed by the principal or the school bookkeeper contacted by phone in order to charge materials to the school.*
