School Protocol for Covid Related Concerns-Student

8/3/20

	Student Exhibits Covid-like Symptoms	Notification of Student Testing Positive	Student has had Exposure to Someone Testing Positive
Administrator	Assign designee to cover the Clinic or Isolation Room. Verify that Isolation Room is disinfected after pick up, and that daily disinfection is done to campus, particularly in areas of recent impact. Close off areas requiring disinfecting until cleaning protocols have been followed. Assign a designee to document the date student is allowed to return and ensure attendance clerk verifies the student is not on campus for the allotted days.*****	Immediately notify the COVID Response Team at Covid@gm.sbac.edu for a positive COVID-19 test result. The following information will need to be gathered: ● Student Name and Grade Level ● Student Contact Information ● School Name ● School location/Areas where they have been within school ● Date Test was completed ● Determine amount of "Significant Contact" with others Notify the teacher(s) of the student testing positive to determine any significant contact made. Close off areas requiring disinfecting until cleaning protocols have been followed. Contact the Facilities Department at 352-955-7400 to determine the additional cleaning/sanitizing procedures needed. Notify staff and families in the classes of the student testing positive without providing any identifying information. Reassure all that cleaning protocols are being followed. Reiterate the importance of wearing a mask, staying 6 feet apart and staying home when feeling sick or after being exposed to a person with Covid-19.	If student has had significant contact with someone testing positive (being within 6 feet of the individual for more than 15 minutes in school or home/community) **OR** if the student is in the same class(es) and the degree of contact cannot be accurately determined: Direct parent to pick up student immediately, if student is in school. Inform parent that student needs to self-isolate for 14 days and be symptom free before returning to school. Close off areas requiring disinfecting until cleaning protocols have been followed. Assure the areas are cleaned and disinfected. Assign a designee to document the date student is allowed to return and ensure attendance clerk verifies the student is not on campus for the allotted days.* *****While the student is self-isolating they may be counted in attendance if they engage in the Digital Academy classes. If this isn't possible, or if they are

		Document the date student is allowed to return and ensure attendance clerk verifies the student is not on campus for the allotted days.**	too ill to do schoolwork, their absences should be excused.
	Student Exhibits Covid-like Symptoms	**Notification of Student Testing Positive**	**Student has had Exposure to Someone Testing Positive**
Nurse/Designee	Take temperature outside of clinic doors, assess symptoms. Nurses will use medical history and latest recommendations to make the determination about when to send a student home or back to class. If Covid-like symptoms are affirmed, notify administration of the need for isolation. Escort student to the Isolation Room, maintaining social distancing, sanitizing hands upon entry, documenting student on the Covid Log. Contact parent/guardian for immediate pickup. Remain in the Isolation Room with student until pickup. Communicate with parent/guardian and share the *Parent Letter Checklist* and *Return to School After Illness/Fever (Covid-19 Symptoms) Letter* upon check out.	Document the information on the Covid-19 Log. Inform the parent/guardian of the individual that those who have been in close contact (siblings, etc.) need to self-isolate for 14 days. Recommend that parent/guardian seek guidance from their medical provider and inform the doctor of the positive test results. Share with parent/guardian the *Parent Letter Checklist* and *Return to School After Illness/Fever (Covid-19 Symptoms) Letter.*	After Administrator contacts parent/guardian of significant contact: Escort student to the Isolation Room and follow protocol until parent pick up. Inform parent/guardian that student needs to self-isolate for 14 days and be symptom free before returning to school. Recommend that parent/guardian seek guidance from their medical provider. Share the *Parent Letter Checklist* and *Return to School Covid-19 Letter* with parent/guardian.

Student may Return to School:	When they have gone 24 hours with no fever without the use of fever-reducing medications, their symptoms have improved **AND** it has been at least 10 days since the symptoms first appeared **OR** They have tested negative, have been fever free for 24 hours, and have been cleared to return in writing by a medical provider. **What to do when you feel sick**	When they have gone 24 hours with no fever without the use of fever- reducing medications, symptoms have improved, it has been at least 10 days since the test was administered, **AND** They have been cleared to return in writing by a medical provider. **Guidelines for Return**	When it has been at least 14 days since exposure to someone testing positive **AND** they have had no fever or symptoms for 3 days. If fever or other symptoms develop, it is recommended that the parent seek guidance from a medical provider and get the student tested. **When to Isolate**
