

PDCP and PDCP Orientation

Are you on a 3 year temporary teaching certificate and need to become alternatively certified?
Interested in learning more about the ACPS Professional Development Certification Program?

PDCP Future Orientation Dates to come...

PDCP is Alachua County's alternate path to satisfy the professional preparation requirements for a Professional Educator's Certificate. See [here](#) for other options available as well.

It is a requirement to have a mentor while you move through the PDCP program. Ask your principal to make a recommendation for someone on your campus who could be a mentor to you. The mentor criteria are:

- recommended by the principal who will verify the mentor has:
 - rated effective or highly effective on their annual performance appraisal
 - completed Clinical Educator training
- must attend an orientation

Please work on securing a mentor prior to the orientation as he/she will need to attend with you! You will want to share the zoom meeting information below with your mentor to attend.

Virtual PDCP Orientation Meeting Dates to be Determined

Click [HERE](#) for more information about the Alachua County PDCP program.
