

## GHS Geometry Honors (Cambridge) 2025 Summer Assignment

Welcome to Geometry honors! Your summer assignment is to complete 10 of the assignments on Khan Academy with a score of 75% or higher. If you do not score high enough the first time, you may redo the assignment until you score high enough.

1. Go to [khanacademy.org/join](https://khanacademy.org/join)
2. Enter your class code:  
4SM743BP

A screenshot of the Khan Academy 'Join your class' page. At the top, it says 'Join your class on Khan Academy'. Below that is a white box with the text 'Enter your class code'. Inside this box is a text input field containing the code '4 S M 7 4 3 B P' with spaces between the characters. Below the input field is a blue button labeled 'Continue'.

3.
  - a. If you are already an ACPS student, please select “log in to your existing account” → continue with Google → use your ACPS login info.
  - b. If you are not yet an ACPS student, click “log in to your existing account” if you already have a Khan Academy account, or click “create a new account”. Enter your date of birth, then sign up using Google, your email, or by creating a username.  
**If you are using an account that is not linked with your ACPS email, please make sure that you use a recognizable username. This should include, at minimum, your last name and first and middle initials. ACPS emails are typically assigned as first initial middle initial last name. So if your name is Maria Kathleen Sondheim, your email will likely be mksondheim@gm.sbac.edu if you want to follow that naming convention.**

4. There are more than 10 assignments; that means you can choose which ones you want to do. If you need to check your progress, click “my assignments” → “active assignments” in the top left corner.

The image shows a sidebar titled 'My assignments' with a list of active assignments for 'GHS Geometry Cambridge Summer 2025'. The assignments are:

- Slope-intercept from two points (Due Aug 15, 11:59 PM, Not started)
- Linear equations with unknown... (Due Aug 15, 11:59 PM, Not started)
- Graphing from slope (Due Aug 15, 11:59 PM, Not started)
- Systems of equations with sub... (Due Aug 15, 11:59 PM, Not started)
- Elimination strategies (Due Aug 15, 11:59 PM, Not started)

To the right, a practice question interface is shown for 'Slope-intercept from two points'. It includes the text 'Ready to practice? Okay, show us what you can do!' and '4 questions'. The interface features a dark blue background with a stylized illustration of a person's head and shoulders.

Click the “next” button at the bottom to see more assignments. As long as you are logged in, your progress will automatically save. So you do not need to notify your teacher when you are done!
