What is EduTone?

EduTone is a single-sign-on portal for educational digital resources. With district provided login credentials, all teachers and students can connect to a secure, single access point for instructionally relevant, digital applications used specifically in our district's K-12 classrooms.

How does my child log into EduTone?

Every student has an AD (Active Directory) username and password. School computers and EduTone require the student's AD username and password to login. If your child does not know his or her AD username and password, please contact your child's teacher. *See AD Password reset (over) for information on resetting password.
