Digital Academy students can participate at their high school. Digital Academy students will need to remain on-site for 15 minutes following the vaccination. To limit the number of visitors on campus, parents will not be present for the clinics.

Students ages 16 and 17 must have a consent form signed by a parent or guardian for each vaccination. **Students 18 and older** may sign their own forms.

These forms should be submitted to your school within 10 days of each vaccination clinic. Students can bring the form with them on the day of their school's clinic if necessary, although we ask that you return the form ahead of time to help your school and the Health Department organize the clinics. Again, the consent form must be signed for a student to receive the vaccine.

Use the links below to download the form and other information about the vaccine. You can contact your child's school to request a hard copy of the consent packet.
