

## **School Choice/Controlled Open Enrollment 2021-22**

Alachua County Public Schools is currently accepting applications for school choice/controlled open enrollment for the 2021-22 academic year. The window to apply for controlled school choice ends at 11:59 p.m. on Friday, April 23.

Through this process, parents can apply for a school other than the school to which their child is zoned. Placement decisions will be subject to priorities outlined in [School Choice Policy 5120.03](#).

If a child is approved and enrolled in a school under the school choice/open enrollment option, that student may remain through the last grade the school offers without reapplying.

Parents may apply for up to three schools, listing their preferences in rank order.

The school choice/controlled open enrollment application is available at:
