# Art Update

March 2023

## Main topic this month:

Our little artists continue to amaze us with their enthusiasm and gorgeous masterpieces. These past few months we have continued using the principles and elements of art to create amazing works of art. All grades made fish-themed artwork. Kindergarten drew a shark and fish underwater scene. They practiced their cutting and gluing skills and showed their knowledge of rainbow color order.

Second Grade excelled in their application of watercolor. They experimented with liquid watercolor and salt to create spectacular ocean backgrounds for their tropical fish collages.

First grade drew fish and used the primary and secondary colors to paint their underwater scene prior to collaging seaweed.

Our studies continue as we explore colorful cityscapes in kindergarten, complementary colors and Pop Art in 1st grade, and Jazz and the Harlem Renaissance collage in 2nd grade.
