Glycogen Storage Disease Emergency Care Plan

Glycogen Storage Disease is a metabolic disorder in which the enzyme that converts the glycogen stored in the liver into glucose is missing. Glycogen builds up in the liver, while the blood sugar drops. Complications include hypoglycemia, liver and kidney disease, and gout.

If You See This	Do This
<ul style="list-style-type: none"> • Irritable/Moody • Tired • Stomach ache • Confusion, slurred speech <p><u>More severe symptoms</u></p> <ul style="list-style-type: none"> • Severe lethargy • Convulsions/Seizure • Unresponsive/Loss of consciousness • No breathing/pulse 	<p><u>Stay with student and keep student calm/quiet</u> For LESS severe symptoms:</p> <ol style="list-style-type: none"> 1. Send for School Nurse and state student's name <p>Call 911 immediately: If the student has any of the following symptoms:</p> <ul style="list-style-type: none"> • Severe lethargy • Convulsions/Seizure • Unresponsive/Loss of consciousness • No breathing/pulse <ol style="list-style-type: none"> 2. Initiate CPR/First Aid if certified as necessary 3. Send for School Nurse 4. Notify Administration 5. Nurse /Administration will notify Parent/Guardian

An **Emergency Care Plan (ECP)** is a plan that gives specific steps for school staff to take when a student has a medical emergency. The plan contains a short definition of the condition, signs and symptoms of the health condition that are emergent and a written step-by-step instruction that outlines what school staff should do for that emergency. Skyward provides information regarding the student's medical condition and parental/guardian's contact information. Health Conditions and ECPs are to remain confidential. Please keep in a secure location and not out in the open.

- We ask that teachers familiarize themselves with the ECPs that are applicable to students' health condition/s in their class. Ask privately:
 1. If the student uses emergency medication/s
 2. If the student keeps emergency medication/s with them
 3. If the student keeps emergency medication/s in the schools' clinic
- Fill out the Student Health Condition List. Print out as many as needed or one per class period.
- Leave the Student Health Condition List and ECPs pertinent to current health conditions in the substitute teacher folders in a secure location
- Ask the school nurse to meet in order to answer any questions on student's health condition or to provide training on emergency medication/s
