Student Email and Internet Usage

Dear Parents,

Your child has been provided with a Google Apps for Education account through the Alachua County Public Schools. Services include Gmail, Drive, Calendar, and Sites. This is an “intranet” account meaning students can only communicate with others in the Alachua County Public School System. Email cannot be sent or received outside this network. The purpose of this account is to provide students a safe environment for meeting educational objectives, academic collaboration, and learning the technology skills needed for the 21st Century.

All district policies apply as addressed in the School Board of Alachua County Bylaws & Policies, 7540.03 – Use of Technology by Students*. The policies are taught as part of the Internet Safety Curriculum. Students are expected to follow these procedures and report any violations. As explained in the policy, the School Board of Alachua County reserves the right to monitor any information, created, accessed, sent, received, and/or stored in any format by students on school equipment.

If you have any questions or concerns please contact your school library media specialist.
