PCGEducation Searching and Copying Lessons

This document will provide you the steps on searching and copying lessons to your planner of choice.

Step 1: Hover over the day you want to add a lesson and left-click to activate the Add Lesson pop-up window.

Step 2: Select the \checkmark search icon to activate the *Copy Lesson* tool.

Step 3: Expand the folders, select a lesson, and click OK.

Note: This tool will allow you to copy any lesson in your personal repository or any lessons shared with you by other teachers.

Searching the lesson repository.

Once you access the lesson repository, you can conduct searches with in the repository by selecting Search

Copy Lesson Search

In this example, I searched for the Lesson Planner titled **District Algebra One**. When searching, you can just enter a few characters or the complete title. It will find all lessons that contain the characters you entered in the search.

Your lesson repository will include all of your lessons along with any lessons shared with you by another teacher.

When searching, you can search by:
