

# Greeting Card Box

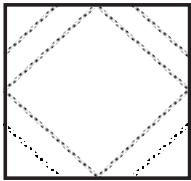

1. Cut a square from a recycled greeting card. (5 1/2" square produces a 1 3/4" X 1" box top; bottom should be cut 1/4" smaller.)

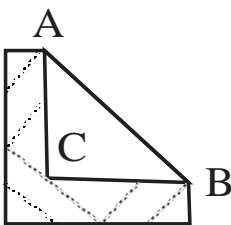

2. With card design-down, fold all four corners to meet middle.

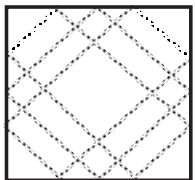

3. Fold back all four center points to meet outside edges.

4. Unfold card. Folds will appear as shown.

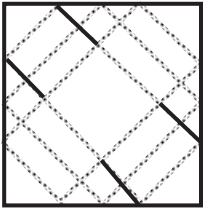

5. Fold top right corner so that top left edge and bottom right edge are creased at "A" & "B" and the point meets "C". Fold all three remaining corners in the same manner.

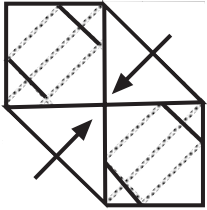

6. Open card. Folds will appear as shown.

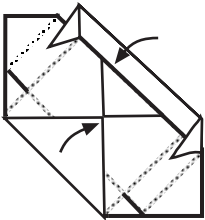

## Greeting Card Box (cont'd)

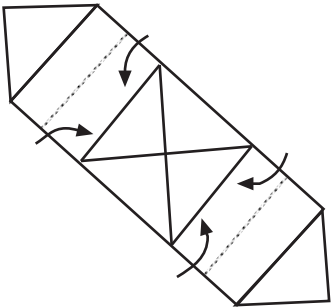

7. Cut on indicated solid lines

8. Fold top right corner to meet bottom left corner in center.

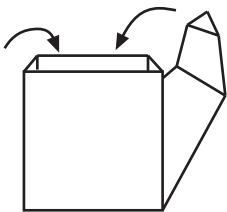

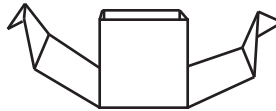

9. Fold up same edges one more time, leaving in an upright position. Repeat on opposite side.

10. Fold in all four corners of upright edges creating a standing square.

(side view)

11. Fold remaining edges over and tape in center . This completes the box lid. Repeat for box bottom.
