

# UNCLE SAM

supplies needed:

- 30" (approx) of 3 1/4" diameter tube - BODY
- Two 6 3/4" pieces of 1 1/4" tube (paper towel roll) - ARMS
- red, white, blue, yellow, peach construction paper
- scraps of royal blue, and black posterboard

Wrap a 10 1/2" piece of red const. paper around base of body tube. Cut 1/2" strips of white const. paper and glue vertically to red paper to create white striped "pants". Wrap a 10 1/2" sheet of royal blue const. paper above striped paper to create "shirt". Add white stars randomly. Wrap a 10 1/2" sheet of peach paper above shirt to make "face". (Note: eyes and nose can be added BEFORE it is placed on tube) Hand draw a mustache and beard from white paper. Measure remaining section above the face. Cut a sheet of red const paper to match. Add to tube (hat). Embellish with vertical white stripes. Cut a 7" circle to use for hat brim. Cut a circle from the center that is the same diameter as the body tube. Slide brim into place just where hat meets face. Add a 2" stripe of royal blue paper above brim. Embellish with yellow stars. Wrap paper towel tubes with blue paper. Add white stars randomly. Hot glue into place on sides of Sam to create "arms". Add punch-outs of hand shape to the ends of the arms. Hot glue Sam to a black posterboard (large) heart to make "feet", and also give stability to Sam.
