

Lincoln's Log Cabin

Hot glue paper towel rolls lengthwise to the sides of a medium laundry detergent box. (Do this all the way around the box) Some rolls may have to be trimmed down to fit the short sides. Add a slanted cardboard roof, a front door cut from a rectangular piece of construction paper, and a chimney that have all been detailed with markers. There you have it...a Lincoln's Log Cabin that will add dimension and flair to your President's Day celebration!
