

LYCEUM AT LINCOLN

SIXTH GRADE STUDENT INFORMATION

BACKPACKS

All students are expected to purchase and bring school supplies with them every day. Lyceum (and middle school in general) comes with a much larger workload than elementary school did, so we suggest every student be prepared with a heavy duty backpack. Small fashion backpacks will not cut it.

Backpacks can get very heavy. We try to limit how much students are carrying back and forth, but it is best to be prepared ahead of time.

PENCILS VS PENS

Middle school requires accountability, but that requires. Students will be responsible for providing their own pencil for school every day. Mistakes happen at school, so pencils will be required so those mistakes can be fixed. Students can bring pens, but all work is expected to be completed in pencil unless other directions have been given. Students will be expected to redo all assignments not done in pencil. Mechanical pencil or regular pencil with sharpener is fine.

TECHNOLOGY

Middle school requires accountability, and that must continue at home. All students in the Lyceum program must have a reliable full size device to work on at home. Laptops, desktop computers, or iPads would be acceptable. Cell phones are not. There are many back to school deals on devices currently, please ensure your student is adequately equipped and has internet access as well. These are home devices only and should not be coming to school.

COMMUNITY SERVICE

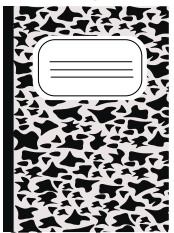

All Lyceum students complete 36 hours of community service each year. You are expected to complete 9 hours each quarter, totaling 36 by the end of the year. You will use our forms to have your service signed off on and submit your completed forms at the end of every 9 weeks. This can be completed with one hour of service a week for the duration of the school year.

6th Grade Lyceum Supply List
