Dear Board Members,

Please consider the following when reading/reviewing Alachua County Public School's DOE 5 Year Work Plan:

- The format is controlled by DOE and cannot be changed.
- The same format is used for all Florida Districts.
- The majority of this report is pre-populated by DOE. Examples include:
 - COFTE (Capital Outlay Full Time Equivalent)
 - Student Station Counts / Capacity (FISH)
 - Relocatable Student Stations

The information, which is shown in the Expenditures and Revenue sections of the 5 Year Work Plan, is the same information in the School Board's Annual Budget. The 2023-24 through 2027-28 potential projects are based on the anticipated funding, which is estimated by Business Services based on historical property tax roll data and information provided by the Department of Economic & Demographic Research. The only year that must be financially balanced is the current year 2023-2024. This 5 Year Work Plan (2023-2028) is balanced and feasible for fiscal year 2023-2024 and is feasible for the second through the fifth fiscal years (2024-2028).

There is no commitment to these projects, as they may be changed at any time. DOE approval is not required to change the projects if needed or directed by the Board or the Superintendent of ACPS.

The Transition School, Duval, Old Terwilliger, and Prairie View do not show projected COFTE or utilization. Currently, the Transition School is housing Westwood Middle School. Prairie View, Duval, and Old Terwilliger are currently vacant.

Sincerely,

A handwritten signature in blue ink that reads "Suzanne M. Wynn".

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

- If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
- If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
- If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.
